

Living Our Freedom

Galatians 5:1-6

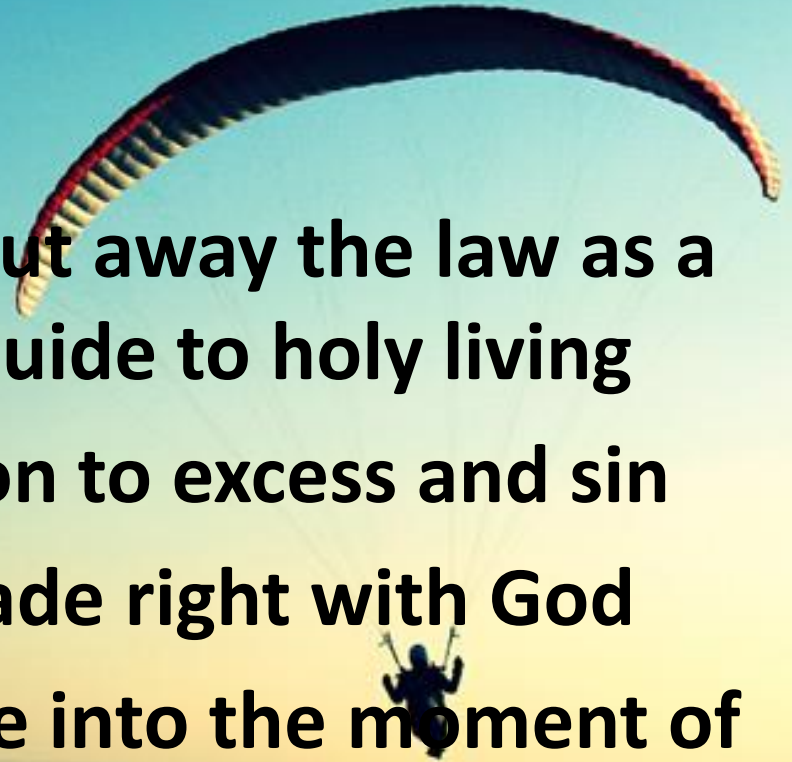

The Law of Need

- We need rules and security
- But this need can enslave us
- Laws that are not healthy or enslaving
- We must find the fulfillment in Jesus

The Law of Grace

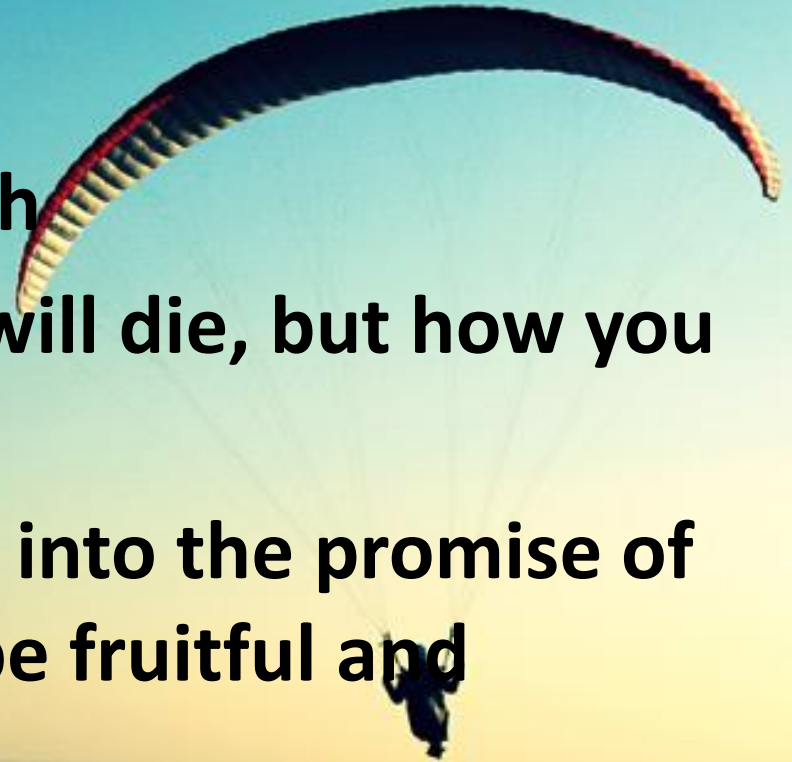

- Freedom is scary
- Grace requires you to put away the law as a master and use it as a guide to holy living
- Grace is not an invitation to excess and sin
- Grace is how we are made right with God
- Grace invited you to live into the moment of obedience instead of the religion of ritual

The Death Penalty

- The wages of sin is death
- Your choice isn't if you will die, but how you will die
- Grace allows you to live into the promise of that freedom, you can be fruitful and productive

Life Application

- **Die to yourself this week by choosing something God wants you to do rather than your own desires.**
- **Go produce some seeds of faith!**
